

Get involved:

If you want to know about any project in Washoe County this is how to do it.

1. Go to: <https://neighborhood-washoe.hub.arcgis.com>
2. All projects that are scheduled for review are on this page. You can click on each one and get more information about them.
3. Go to the bottom of the page and sign up to be notified when a project is forthcoming.
4. Go back to the projects of importance to you and click on the **link**. **“Normally this is the wording about the project itself”**. Then go to **“Project Documents”** click on **“Notice Card”**. There you will be able to see who the planner is. It should say something like, “if you have questions regarding ..... Contact the Washoe County Staff Planner for the request”. Then it will give you the **contact information** about the Planner. **Keep this information.**
5. It is your best interest to contact the planner and ask as many questions about the project as you can as early as you possible can. The planner will talk to you and be straight forward about the process. You can even set up follow up meeting to keep up to date on the project. This is **your in** to make comments directly to staff about the project **BEFORE** it goes up for a vote.
6. Your opinion matters. The planners are reasonable and honest based upon my knowledge of them, and they do actually care about what you have to say.
